Sour Temper and Sour Stomach.

The stomach is the main organ in keeping up a healthy condition of the body. If it fails in its duty, the supplies will not go on and the rest of the members must languish and decay. The stomach may fail from too much work; the remedy is, give it DR. KEYSER'S BLOOD SEARCHER until it has attained a natural condition and it will go on of itself. If it recovers without Blood Searcher, or any thing else, so much the better. We only point out the remedy if it should be necessary. It cannot do harm if the directions are followed. It can do no good when it is not needed.

DR. KEYSER'S BLOOD SEARCHER is a great remedy when the blood is disordered and impoverished; when the skin and kidneys need a gentle stimulant, when the former breaks out in blotches and eruptions and is sallow and pale like an ill made tallow candle, and when the latter are torpid and the back aches and drags with indescribable pain.

Dr. Keyser's Blood Searcher has cured hundreds of cases of diseases dependent on a disordered digestion and an obstructed state of the natural cleansers of the system. It will clean out and bring into activity the sleeping functions of life, and restore health and beauty to the whole animal economy.

Dr. Keyser's medicines are sold by most druggists, and at the proprietor's, 140 Wood street.

Ask for Dr. Keyser's Blood Searcher and take no other—$1 per bottle; six for $5. Dr. Keyser's consultation rooms for lung examinations No. 120 Penn street, from 8 a. m. until 4 p. m.

Another Burglary.

For weeks past the daily papers have teemed with accounts of burglaries in various localities, executed with so much skill that the unfortunate recipients of these visits from light-fingered gentry, know nothing of their loss until the morning after. A simple and unfailing method of receiving notice of the intended entry has been patented, and may be seen at 103 Third street. Agents wanted.

WE find in the London *Times* the following account of the sufferings of the laboring people in some of the wretched districts in East London:

At certain doors in those districts are to be seen daily crowds of men jostling, striving, almost fighting, for admission—to what? What is the strong attraction? A favorite actor, a popular parson, a sensational spouter, a prize fight, or a rat hunt? No, it is to gain the privilege of breaking hard stones for two or three hours in a cold muddy yard attached to the parish workhouse, for the reward of threepence and a loaf of bread.

These men, too, are not clad in the usual stoneyard apparel; they wear good coats; rags are scarcely to be seen. They are men who, not very long ago, were earning from 18s to £2 weekly, to whom the very mention of workhouse would have been contamination; and here they struggle and wrestle for its most meagre advantages.

In the winter of 1855-6 the average daily number of able-bodied men who worked in the Poplar stone yard was 200. In the last week of December, 1866, it was 550; on the 9th of January it was more than 1,000, with every probability of an increase.

In the last week of December, 1865, the number receiving out door parochial relief from the same union was 1,974. In the last week of December, 1866, it was 4,840.

On the 1st of January, 1867, there were in Poplar alone, 9,496 persons receiving parochial and charitable assistance; the number now is at least 12,000. If to these are added the poor of Limehouse, Shadwell and Stepney, the total number of poor receiving parochial and other aid will exceed 20,000 persons, as stated in an advertisement recently issued from the Society for the Relief of Distress.

—A party of about one hundred Norwegians, mostly young men was brought across the Atlantic to engage in the furniture manufacture in Clinton county, New York. They are described as strong and rugged physically, and of great worth of character. The person who went over to Norway to secure the services of these immigrants says that great numbers of Norwegians answered his advertisements, and his chief difficulty was to select the few he desired from the crowd of applicants. The United States is highly popular among the laboring classes abroad, and the immigration during 1867, it is estimated, will be greater than during any previous year.

—Speaking of the efficiency of negro testimony, the Charleston *Mercury* says that thus far the law admitting negro testimony in the South Carolina courts "has been attended with more than the usual success. The colored witnesses appear to be fully impressed with the obligations placed upon them, and their evidence has been generally given with an evident desire to tell the whole truth and nothing but the truth. There was but little tendency to prolixity and discursiveness, and the testimony has, in the late criminal trials, been clear, intelligible and to the point."

PAYMENT OF TENNESSEE SENATORS.

Mr. HARRIS, from the Judiciary Committee, reported a resolution to pay the Senators from Tennessee compensation to be computed from the commencement of the Thirty-Ninth Congress.

Mr. TRUMBULL said the Senators from Tennessee were entitled to compensation from the date of the admission of Tennessee, but not before; but to pay them from the commencement of Congress would be to admit that Tennessee was entitled to representation all along. If this principle were applied to Tennessee, it would apply to South Carolina, when Senators from that State were admitted, as they sooner or later must be. They would claim compensation from the date of their election, and must receive it.

On motion of Mr. WILSON, the resolution was postponed until to-morrow.

AGRICULTURAL COLLEGE LANDS.

Mr. PATTERSON presented the resolution of the Tennessee Legislature asking that Tennessee be admitted to the benefits of the act of Congress donating lands to the several States for Agricultural Colleges. Ordered to be printed.

The section authorizing the Supreme Court to appoint a Marshal for the District of Columbia is struck out, and the courts are given power to nominate marshals instead of, upon the nomination of Chief Justice.

Mr. TRUMBULL, from the Committee on Judiciary, reported a bill providing that the act authorizing the payment of certain demands for Quartermasters' stores and Subsistence supplies furnished the United States, shall not be construed to authorize the settlement of claims for stores taken or furnished for the use of arms, nor for the use or injury to real estate or personal property by the military authority or troops of the United States, where the claim originated during the late rebellion in any State declared in insurrection by the proclamation of July 1st, 1861, excepting as to loyal citizens of West Virginia and Tennessee.

INCREASED COMPENSATION TO CLERKS.

The joint resolution authorizing increased compensation to the civil employees of the Government, whose salary does not exceed $3,500, was debated without action, Mr. TRUMBULL urging an amendment to make its benefits apply to female clerks.

BANKRUPT BILL.

On motion of Mr. SHERMAN the bill to regulate the tenure of office was postponed and the bankrupt bill considered and amended slightly.

Mr. WILLIAMS offered a proviso that no proceedings involving voluntary bankruptcy under this act, shall absolve any obligation of any existing contract.

Mr. SHERMAN said the effect of this would be to kill the bill indirectly, and he preferred a direct vote.

Mr. HENDERSON moved to recommit the bill with certain instructions. Rejected.

Mr. Williams's amendment was rejected.

An amendment was adopted that no proceeding under this act shall be commenced before the 1st of June next.

Mr. HOWARD moved to strike out the section relative to corporations, which contains a proviso for forfeiture of their franchises in case of bankruptcy.

Debate arising, the resolutions went over.

CURTAILMENT OF BANK NOTE CIRCULATION.

Mr. WILSON, of Iowa, offered a resolution declaring as the opinion of the House, that the public interests will not justify a greater curtailment of national circulation than $4,000,000 per month during 1867, of which $48,000,000 ought not to be exclusive of and in addition to compound interest notes falling due during the current year, and that in lieu of such amount of compound interest notes as may become due and be redeemed within the year, as may be in excess of the amount of currency authorized to be withdrawn, the Secretary of the Treasury ought to be authorized and requested to issue United States legal tender notes without interest.

Mr. WILSON moved the previous question, which the House refused to second, and

Mr. WENTWORTH rising to debate, the resolution went over till Monday.

Mr. PRICE offered a similar resolution, and demanded the previous question, which was negatived—yeas, 68; nays, 69. The resolution then went over till Monday.

GEN. GRANT'S INDIAN POLICY.

Senator Wilson submitted to the Senate to-day a communication from the Secretary of War, transmitting from Gen. Grant a plan proposed by Col. Parker, of his staff, for establishing permanent peace with the Indians. It proposes—*First*, the transfer of the management of Indian affairs to the War Department, for many reasons, among which is the necessity of abolishing the trading and agency system. *Second*, the establishment of territorial governments for Indians. *Third*, The appointment of an inspection board, as a temporary measure, to examine the accounts of Indian agents, and inspect the goods and agricultural implements furnished Indians. *Fourth*, A commission consisting of whites and educated Indians to to visit all the tribes, hold talks with them, show them the benefits of permanent peace, and the abandonment of their nomadic life, the adoption of agricultural pursuits, and of their consolidating in one territory. The American people, it is urged, can never adopt the policy of a total extermination of the Indian race, without the cost of untold treasure and the lives of her people, besides exposing herself to the abhorrence and censure of the entire civilized world.

Major General Pope has written a letter to General Grant in favor of the transfer of the Indian Bureau to the War Department.

SUPREME COURT.

In the Supreme Court to-day, Evans, plaintiff in error vs. Patterson; error to Circuit Court for the Western District of Pennsylvania. Judgment was affirmed with costs, per Justice Grier.

In the Yellow Jacket Washoe Mining case, the writ of error was dismissed for want of jurisdiction, which leaves the original judgment of the Supreme Court of Nevada undisturbed, and is in favor of the company. About one-fourth the mine, valued at from six to eight hundred thousand dollars in gold, was involved.

GOVERNMENT OF THE LATE INSURRECTIONARY STATES.

Senator Williams, of Oregon, to-day submitted a bill to the Senate "to provide for the more efficient government of the insurrectionary States." It was referred to the Joint Committee on Reconstruction. The bill is as follows:

WHEREAS, The pretended State governments of the late so-called Confederate States of Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Louisiana, Florida, Texas and Arkansas were set up without authority of Congress and are of no constitutional validity; and

WHEREAS, They are in the hands and under the control of the unrepentant leaders of the rebellion, and afford no adequate protection for life and property, but countenance and encourage lawlessness and crime; and

WHEREAS, It is necessary that peace and good order shall be enforced in the said so-called States until loyal and republican governments can be legally formed; therefore,

Be it enacted, &c., That each of the said so-called States shall constitute a military district, to be subject to the military authorities of the United States as herein enacted and prescribed.

SECTION 2. That it shall be the duty of the General of the army, under the authority of the President of the United States, to assign to the command of said districts an officer of the regular army, not below the rank of Brigadier General, and to furnish such officer with a military force sufficient to enable him to perform his duties and enforce his authority in the district to which he is assigned.

SEC. 3. That it shall be the duty of each officer assigned as aforesaid, to protect all peaceable and law-abiding persons in their rights of person and property; to suppress insurrection, disorder and violence; and to punish or cause to be punished all disturbers of public peace and criminals. To this end he may allow the local tribunals to take jurisdiction and try offenders, or when, in his judgment, it be necessary for the trial of offenders, he shall have power to organize Military Commissions or Tribunals, for that purpose, anything in the constitution and laws of the so-called States, the contrary, notwithstanding; and all legislative and judicial proceedings of said Military, Commissions or Tribunals, and all interference by said pretended government with the exercise of military authority, under this act, shall be void and of no effect.

SEC. 4. That courts and judicial officers of the United States may issue writs of habeas corpus in behalf of prisoners in the military custody, only when some commissioned officer on duty in the district where the petition originates, shall endorse on said petition a statement certifying upon honor, that he has knowledge or information as to the cause and circumstances of the alleged detention, and believes the same to be wrongfully enforced, and that he believes the endorsed petition is made in good faith that justice may be done, and not to hinder or delay the punishment of crime; and all persons put under military arrest by virtue of this act shall be tried without unnecessary delay, and no cruel or unusual punishment shall be inflicted.

SEC. 5. That no sentence of any military tribunal affecting the liberty or life of any person shall be executed until approved by the officer in command of the proper district; and the laws and regulations for the government of the army shall not be affected by this act, except in so far as they conflict with its provisions.

A TEST CASE.

George Taylor, Robert J. Brent and Richard Merrick, Esq., attorneys of the State of Texas, have commenced a suit in the United States District Court in this city, against the Secretary of the Treasury, merely for the purpose of testing the right of holders of certain indemnity bonds to recover the amount thereof, namely, $100 in gold. It is merely a question of title. Texas alleges that these bonds were improperly procured from the State, on unfulfilled contracts, during the rebellion, and sold to various parties who now claim payment, and for this should not be honored by the Government.

INDIAN DELEGATION.

The delegation from the Indian tribes residing in Kansas, who arrived in Washington last week, had a business interview with the Commissioner of Indian Affairs this afternoon. The delegation visited the city for the purpose of making arrangements to remove from land now occupied by them in Kansas, and settle on land set apart for them in the Indian territory. The interview continued some time, but no arrangements were entered into. Another will take place in a few days.

FREEDMEN'S AFFAIRS.

Gen. Howard, Commissioner of the Freedmen's Bureau, issued to-day the following order to the Assistant Commissioners throughout the country:

The special attention of Assistant Commissioners is called to the subject of transportation. Transportation is given only to relieve the Government of the support of the indigent, and enable those in extreme want to reach places where they can provide for themselves, Hereafter no orders for transportation of freedmen and refugees will be issued except from this office, and every application, besides the right condition already imposed, must set forth clearly the fact of extreme destitution, which must be certified.

NAVAL BULLETIN.

Captain Guest, Ganssevoort has been placed on the naval retired list.

[From the Times Correspondence.]

The investigations of the Custom House affairs in New York and Boston has been completed, and the Committee have returned to Washington. Several days will elapse before their report will be made.

It is understood that a majority of the Reconstruction Committee have agreed upon a plan, which, if adopted by Congress, will be acceptable to the South, and will speedily settle the question. The leading Southern men now in Washington give assurance that their constituents will at once comply with its requisitions.

The loan certificate proposition is approved by Senators Fessenden and Sherman; there is little or no opposition in either House to it. Secretary McCulloch also approves it.

[From the World Correspondence.]

The Judiciary Committee have done nothing in the impeachment matter yet, except conferring with several gentlemen informally; and this has been done by radical members at the request of Mr. Ashley, in order to see how much of a prospect there was to sustain the charge.

It is rumored that Gen. Sheridan will be sent out to the Plains to conduct the impending Indian war.

The Joint Retrenchment Committee do not find any foundation for the charges against the management of the Sub-Treasury in New York. They will examine a few more witnesses and report this week.

[From the Herald Correspondence.]

It is definitely settled that articles of impeachment will be presented to the House at an early day, but the Senate will not take them up till the next session.

A prominent gentleman says that the President informed him that if the tariff bill passed the House in its present shape, he would be compelled to veto it. The bill can pass the Senate over the veto, but whether it can in the House is unknown.

[From the Tribune Correspondence.]

At the meeting of the Reconstruction Committee on Saturday, each plan was debated thoroughly. Mr. Stevens advocated his plan, but it is said he did not receive much encouragement. The committee adjourned to meet on Tuesday. It is doubtful whether a majority will agree upon any of the plans now before them.

The New Orleans Riot Committee will report a general bill for provisionally governing Louisiana until it is admitted to representation in Congress, and also an enabling act.

[From the Chronicle Dispatches.]

The parley that has been going forward for several weeks between Governors Orr, Parsons, Sharkey, Marvin and other noted Southerners and the President, concluded yesterday with the preparation of a series of resolutions adapted for transmission to the Legislatures of the excluded States. They provide for suffrage without distinction of color, based upon qualifications of reading, writing and property to the amount of $250. An advisatory letter accompanies these resolutions, suggesting immediate action upon them by the Legislatures of the South. The documents were forwarded last night to the Governors of South Carolina and Georgia, and the Governors of North Carolina, Mississippi and Louisiana were telegraphed to hold their Legislatures in session, or convene them immediately if adjourned. The President proposes to embody the substance of the above resolutions in his message to the Fortieth Congress, and desires to secure their favorable consideration by the above States, in order to increase the force of the recommendation.

Suits Growing out of Cotton Speculations During the War—Fires and the Insurance Companies—An Organized Resistance to the Excise Law—Riot in Jersey City—News from the West Indies—Cyrus W. Field.

NEW YORK, February 4, 1867.

COTTON SPECULATION DURING THE WAR.

Charlotte Hough has brought suit against the firm of Jordan, Marsh & Company, of Boston, for money due her from cotton speculations during the war. She claims that she was employed by the firm during the war to buy cotton in the Southern States, and manipulate the Government employees for the purpose of passing it through the lines, and that the firm made a hundred thousand dollars by her agency, and refuse to divide. General Butler and J. H. Sweetzer are employed by her as counsel.

THE DRY GOODS TRADE.

The New York *World* says: The market for dry goods during the past week continued dull and unsettled throughout. Towards the close there was a light demand for immediate consumption, the sales, however, aggregating but little. Holders still hold out and reduce and make concessions in prices. The stock of goods is large, and the general impression is that prices will fall off at an early date. Foreign dry goods dull and quiet; importation continues heavy, the greater portion, however, going to warehouses. The auction sales have not been very successful, the prices bid not coming up to the views of holders.

RESISTANCE TO THE EXCISE LAW.

The first open resistance to the Excise law occurred yesterday on the corner of First avenue and Twelfth street. An officer was attacked by a crowd of one or two hundred persons, men women and children. Reinforcements of police arrived, and after a severe battle the rioters were dispersed, leaving their ringleaders, named Lancaster and Dearing, in the hands of the police. They have since been held for trial.

CITY AND SUBURBAN.

Extensive Robbery in the Diamond.

Yesterday morning officers McMullen, of the regular and special police, arrested two men named Henry Chapman and McCormack Dougan, charged with larceny, on the oath of Joseph Fritsch, proprietor of the Miner's Home, in the Diamond. The alleged larceny consisted principally of articles of cutlery and jewelry, and was committed on Sunday afternoon. At about one o'clock on the afternoon mentioned, the bar-keeper at the Miner's Home left the house to go to Temperanceville. Immediately afterwards Mr. Fritsch, his wife and child left the house to visit Mr. F.'s brother, in the neighborhood. Before going out Mr. Fritsch locked the back door, leaving the key on the inside in the lock. Shortly afterwards the bar-keeper, not being able to cross the ferry, returned to the house, and applying his key to the back door, gained admission without difficulty, the key on the inside having been removed. On going in he found Chapman, who had been living at the house some time, apparently very much at home. He inquired of Chapman how he got in, and was told that Mr. Fritsch had given him the key to the back door. The bar-keeper soon went out and went to the house of Mr. F.'s brother. There he mentioned incidentally the fact of Chapman's being inside, and also his statement concerning the key. Mr. Fritsch, thinking all was not right, went home, but found no Chapman there. Investigation proved that he had gained access through the door leading into the bar-room from an oyster saloon kept by McCormack Dougan, under the Home. Further investigation proved that a robbery had been perpetrated, and that the thief or thieves after ransacking bureau drawers, trunks, etc., obtained the following articles and departed: One gold watch, three silver watches, a box containing a lot of jewelry, ear rings, breast pins, finger rings, one pair pantaloons, one vest, and a number of articles too numerous to mention, the whole valued at about four hundred dollars.

Chapman was found yesterday morning, and he immediately acknowledged the theft and delivered up the stolen goods with the exception of two or three watches. He states that Dougan had all the rest. Dougan was waited upon, but denied the robbery most emphatically. Chapman was with the officers, however, and told him he might as well give up the goods as he had told all about him. Dougan was arrested, and both prisoners locked up. They will have a hearing to-day. Dorgan still declares his innocence. Chapman came to Mr. Fritch's about three weeks ago, and seemed so forlorn and friendless that Mr. F. offered him board and lodgings for doing odd jobs about the house.

The Opera.

A brilliant and fashionable audience, at least as brilliant and fashionable as our democratic city can bring forth upon rare stated occasions, assembled last evening at the New Opera House, where was produced the elevated and inspiring opera of "Il Trovatore." In the hands of the great Strakosch troupe of talented artists this grand masterwork of Verdi did not suffer from want of perfect interpretation and brilliant execution, but was rendered in a style which enraptured and held spell bound the audience. The choruses were not so large and powerful as they might have been; but what they lacked was amply made up to the willing listener in the sweet trills of the solo, the enlivening duets, and the sublime and massive chords of the orchestra. We cannot speak of individual performers, since singular to say, no programmes were distributed and the audience was in perfect ignorance as to whom they were indebted for some of the more elegant and elaborate vocalizations.

To night "Crispino E La Comare will be produced for the first time. The plot of this is very simple but the music grand. A cobbler, Crispino, is very poor. He would end his life by drowning; a fairy, La Comare, appears, "takes him in," makes a renowned physician of him; he gets wealthy and proud; is the subject of jealousy among rival physicians; performs wonders and treats his wife bad; "goes back" on the fairy; forgets his gratitude to her; she retorts and "takes him down"—to a "cavern below;" tells the poor cobbler his "sands have run out;" he believes; gets frightened; makes his will; wants to see his wife and children before he "goes under," fairy holds out a looking glass where he sees the "old folks at home;" he sues for life; promises amendment; fairy consents and sends him back to his family—he awakes and thus ends the—dream. This is the English for the Italian.

Seats may be secured for to night or any other evening of the week at C. C. Mellors Music Store 81 Wood street.

More of the Wheeling Break Up.

The *Intelligencer* of yesterday morning says: For several days the steamboat owners had been endeavoring to prepare for the event, and had a large force of men working with might and main endeavoring to cut away the ice from about the boats. They were however only partially successful. On the river side of the Hillman and the Eagle, (both side-wheel boats), the ice was found to be clinging in enormous masses, many feet thicker than the ice on the surface of the river, and it was found impossible to remove it before the river began to break. Notwithstanding the ice clinging to her wheel, the owners of the Eagle had succeeded in clearing a considerable space on the land side of her and hauling her pretty near shore.

The Eagle was the first to part her chains and hawsers, but having a supply of new lines, was soon made fast again. Shortly after the Hillman parted her chains, and all her lines snapped like threads, and she started out into the great flood of ice. The New State, which had been wedged between the Hillman and the shore, next parted all her lines, and was driven into the eddy at the mouth of the creek, and a line was run out and made fast, her stern being up the river. Her new line soon parted, however, and she went down the stream. It had been thought that the Eagle, which had held on to her moorings so bravely against the immense fields which had already passed her, would be able to ride the danger out in safety. A number of new lines had been made fast, and it seemed if there was any good in cordage, she must hold. One after another of her lines parted, and the new ones were strained until they sung like a fiddle string. She was then driven with great force upon a raft belonging to the Messrs. Hubbard. Everything crushed as if the whole side of the boat was being stove in. She, however, rode over it safely, and, with the wharf-boat lashed to her, passed down the stream.

The steamers Hillman, New State and Eagle are all partially insured. Even if saved they must, in the necessity of things, suffer considerable damage by their rough encounters with the ice.

Brutal.

Yesterday afternoon, Mrs. K. N. Close came before Alderman Donaldson, and made information, charging George Bachtel with aggravated assault and battery. It is alleged that the little son of the deponent, a boy of nine years, was passing with a number of school children along Smithfield street, in front of the Red Front grocery store yesterday at noon. Some hogsheads of sugar were placed in front of the store, and some of the children, Mrs. Close's little boy among the rest, stopped to pull some out with their fingers through a small hole in one of the hogsheads. The accused, who is an employee at the store, took a quart cup, as is stated, and filling it with boiling water from the copper on the stove, ran out and emptied the scalding liquid on the head of the little boy Close. The child screamed and ran out into the middle of the street, where he fell helpless and lay until picked up. The child when taken before the Alderman presented a shocking appearance, the entire side of his head, face and neck being literally cooked. He was taken to Dr. Kearns, who treated him for the injuries. The Doctor stated that it is probable that all the hair from one side of the head will come out, and will never grow again. It is also feared that one of the eyes will be lost. The brutal perpetrator was arrested and held for a hearing. He desired to make an information against the child for the larceny of sugar, as we are informed, but was not permitted. We make no comments.

Carpets and Where to Purchase.

Few of our readers who are interested in domestic affairs and house furnishing but know of the tip top carpet warehouse of Messrs. McFarland, Collins and Company, 71 and 73 Fifth street. It has long occupied the front rank in the trade of the city and has succeeded in controlling a large share of public patronage. The firm have ever given great care to the selection of their goods, and, content with moderate profits, they have made their establishment known as the cheapest place west of the mountains for the purchase of good articles in their line of trade. Recently a large stock of new and fashionable carpets has been imported to the city by this house, which cannot be excelled in extent and variety. They deal largely in window blinds, floor oil cloths, Scotch window Hollands, English woolen druggets, woolen and linen crumb cloths, English wilton and velvet rugs, Swiss lace and applique curtains, Nottingham curtains, cornices and a general stock of carpet and curtain upholstery. Orders from the country will be promptly and properly filled, and trade from that quarter is respectfully solicited. From long personal acquaintance with the members of this firm, and a thorough knowledge of the system and style of their business, we are prepared to fully recommend them to the patronage of the public.

Man Killed on the Allegheny Valley Railroad.

An accident, with fatal results, occurred last evening, at about seven o'clock, on the Allegheny Valley Railroad. A man named Philip Reissick, a boiler-maker, residing in Allegheny, but employed at Negley's Run, got upon the mail train on the Allegheny Valley Railroad, at that station, to come to this city. When the train reached the corner of Pine and Pike streets, in the Fifth ward, Pittsburgh, Mr. Reissick attempted to jump off. He was struck by the projecting steps of the following car and knocked back upon the track. The cars passed over both legs, severing them completely below the knees. He was taken up immediately and conveyed to the depot on Canal street, but was dead before reaching there. The deceased was sixty-two years of age and resided on Main street, Allegheny. Coroner Clawson empannelled a jury, but owing to the absence of important witnesses, the inquest adjourned to be resumed this evening at Alderman Taylor's office.

Fatal Accident at Mansfield.

An accident, resulting fatally, occurred yesterday afternoon at Mansfield Station, on the Steubenville Railroad. At about half-past four o'clock a freight train was being run off the switch at that station. A brake man, named John Kelly, was engaged in coupling the cars, and was standing with one foot on the bumper of each of the cars to be coupled. While he was standing in this position the engineer moved the train suddenly and Kelly was thrown from his balance, falling to the track between the two cars. Before he could be rescued the wheels of one truck had passed over him, crushing both his feet completely, cutting his head very badly, and tearing the left arm almost completely from the socket, so that it hung only by small shreds of flesh. Drs. G. L. M'Cook and E. S. Umbstaetter, from this city, were immediately summoned, but before they reached the place the unfortunate man was dead. An inquest will be held in the case to-day.

Highway Robbery on St. Clair Street.

One of the boldest instances of highway robbery of which we have heard, transpired yesterday morning on St. Clair street at the mouth of the alley at the end of the Red Lion Hotel. As Mr. J. F. Follansbee, in the employ of Day, M'Aboy & Spang, was proceeding to his work, between six and seven o'clock, he was seized, when opposite the mouth of the alley, from behind by a muscular man, who tightly held his arms while a second highwayman rifled his pockets. All this transpired in an instant, the two highwaymen darting away out of sight into the alley. Mr. Follansbee on feeling his pockets found that his portmonnaie, containing about fifty cents in change, and his spectacle-case had been taken by the bold foot-pads. It's a great pity the flight of the rascals had not been suddenly stopped by a shot from a revolver.

A Novel Instrument.

Yesterday we were shown by Dr. Keyser, whose consultation office is at 120 Penn street, one of the most ingenious and useful devices for examining the lungs and air passages which has ever been brought to our notice. The application of the instrument to the patient is perfectly painless, but it at the same time points out with unerring accuracy the exact state of the respiratory organs. We understand it is the Doctor's intention to apply the principle of the instrument to the restoration of hearing in those who are deaf, or whose hearing has become impaired or in any ways defective. It is really a wonderful discovery in acoustics and worthy the attention of all scientific men, as it tells to the ear, the state of a man's lungs as well as would a transparent glass to the eye.

Cutting off the Pan Handle.

The Wheeling *Register* says: "We learn that petitions have been drawn up, and will soon be circulated, asking that the "Pan-Handle" counties, Ohio, Brooke and Hancock, be annexed to the State of Pennsylvania. It is contended by those moving in the matter that if the counties named were taken from West Virginia and attached to Pennsylvania, the peoples' burdens in the way of taxation would be much lighter, and that the territory is so located that it would increase its value were it annexed to Pennsylvania."

Enlarged.—The *Dispatch* came to us in an entire new dress and somewhat enlarged size yesterday. It has adopted the quarto form, an untried experiment in these parts, and is printed upon a sheet about the size of the GAZETTE. It presents a very handsome appearance, and we trust the enterprise of the proprietors will be amply rewarded by an appreciative community. The *Dispatch* is a good local paper, and presents fair claims as an advertising medium. We wish it continued success and prosperity.

Universalist Fair.—There is now being held at City Hall a grand fair and festival, under the auspices of the Universalist congregation of this city. Good music, handsome ladies and a worthy cause should be enough to attract our readers to the hall every evening. We trust that the fair will prove a great success, as those interested have spared neither pains nor money to make it the pleasantest occasion of the season.

Soldiers' League.—This evening the Allegheny Soldiers' League will hold their regular meeting, in their new hall, over the Malta House, on Federal street, Allegheny, near the railroad depot. This, the first meeting in the new hall, will commence at the usual hour, 7½ o'clock. A punctual attendance of all the members is requested, as the charter will be submitted for the approval of the League.

The Fakir of Vishnu.—The Fakir of Vishnu had an immense house last evening, and several hundred were turned away from the door unable to gain admittance. His success has been unparallelled since his advent into this city, but it has been won from pure merit alone. The usual prizes will be distributed to-night among the audience.

Paine & Co's Argentine.—For instantly plating all articles of copper, brass or German silver, with pure silver, where worn off, and for cleansing and polishing silver or silver-plated ware. Warranted to contain no quicksilver or acid, or any injurious article. For sale by J. Sample, Allegheny, and all druggists. del3:tf

New Paper.—We have received the first number of the Cambria *Freeman*, published at Ebensburg, Pa., by H. A. McPike and R. L. Johnston, Esq. The latter, a clear headed, well posted and talented lawyer, has assumed editorial control, and under his administration the new paper will certainly flourish.

Skatorial Presentation.—Jno. Engler, jr., of Jersey City, was made the recipient last evening of a magnificent gold medal, valued at $125, and a purse containing $100. Mr. Algeo, of Fifth street, manufactured the medal. The presentation took place at the Rush House.

Coming Down.—Rents are surely and steadily coming down. Avaricious landlords, at least in some cases, will pay for their efforts to run up rents, as they will have empty houses upon their hands.

Alderman's Card.—Samuel McMasters, the recently elected Alderman of the Third ward, has located at No. 144 Grant street, near Sixth, where he will devote his entire time to the duties of his office.

Almost Lost.—A lady yesterday dropped her pocket book on Fifth street, which was picked up by a newsboy and returned to her. The boy was handsomely rewarded for his honesty.

Abandoned.—The much complained of rule in vogue in some of our public schools, compelling children to become informers upon themselves, has been abandoned. Sensible.

Bad Condition.—The streets are in a very bad condition, but our indefatigable Street Commissioners will right matters if the weather holds up to give them a fair show.

Swept Off.—On Sunday the old hospital boat, "Mary Tee," captured from the rebels and owned by Capt. R. Frisbey, was swept away from McKee's Rocks by the ice.

Paintings.—A. M'Ilwain, auctioneer, announces another grand sale of paintings, originals and copies from the masters.

Have Paid.—It is said that all of the Skating Parks have yielded handsome profits this season.

Cleaning.—Our house keepers are taking advantage of the open weather to clean up their domicils.

Reviving.—Business is reviving and it is thought a heavy Spring trade awaits our merchants.

Of Age.—The *Dispatch* is now of age—having attained its 21st year.

Wanted.—The "iced Monongahela" now running out.

DIED.

FLEMING—On Saturday night, the 2d inst., Mrs. SARAH FLEMING, in the 73d year of her age.

The funeral will take place on TUESDAY, the 5th inst., at 2 o'clock P. M., from the residence of her son in-law, A. M. Byers, Western avenue, Allegheny City.

FROM THE WEST.

The Late Indian Massacre—Only Four Men Out of a Train of Sixty-Three Escape.

TOPEKA, Ks., Feb. 4.—The report of a late Indian massacre on the Plains is confirmed by a letter received by Governor Crawford, of Kan sas, from a well known citizen of Salina, Kansas. The massacre occurred in the vicinity of Sand Creek, on the route from Fort Riley to Fort Lincoln. The train attacked is spoken of as a Government train, and only four out of sixty-three men with it escaped.

The letter further states that small parties of Cheyennes have been several times near settlements, and the Arraphoes have passed on through the settlements, being afraid to go home by their usual route across the head waters of Saline and Solomon forks. The Kaws also report large bodies of hostile Indians near the frontier settlements.

The writer's opinion is that the Indians will confine their depredations to the travelled roads.

Advices from the Platte state that the force of Indians that has moved South on the war path, amounts to twelve thousand. There are not United States forces enough to cope with this number in this part of the country, and if the militia have to do it, speedy organization should be effected.

DENVER, COLORADO, February 4.—The reported Indian massacre on the Smoky Hill, is doubted there. Coaches are arriving regularly and no hostile Indians heard of between Junction City and Denver.

ST. LOUIS, Feb. 4.—The *Democrat's* St. Joseph special says: The Central City, Colorado, *Register* of the 24th ult., states that the Indians made a raid on that station last night, killed three men and ran off a large amount of stock belonging to a train.

A demand has been made on the stage agent at Denver for arms and ammunition. More attacks were expected along the line.

The Pittsburgh Gazette.

TUESDAY, FEBRUARY 5, 1867.

HON. THOMAS WILLIAMS.

A few days ago we made some comments, by no means unfriendly, upon the Supreme Court bill recently reported by this gentleman to the House of Representatives. At these comments he seems to have taken offense, for we find in yesterday's *Commercial* a letter from him addressed to a friend, but evidently designed for publication, in the words following:

DEAR SIR:—I do not know, of course, from what source the *Gazette* derived the information that the bill in question was either reported from the Judiciary Committee, or the idea it embodies first broached by two or more journals of Illinois. Allow me, however, to correct the statement by the information that it was not reported from the Committee, but introduced by myself, without consultation with anybody, and that whether suggested in the way spoken of or not, the fact was as entirely unknown as is that of its previous consideration upon the suggestion by anybody here. The idea was one, I suppose, that was just as likely to occur to any well-read lawyer as to the conductor of a Western newspaper.

Whatever, therefore, may be the merits or demerits of the proposition, I desire the public to understand that nobody is responsible for it but myself. Whether it shall meet the approval of the Committee or not, I cannot undertake to say, for the reason that it has not yet been considered, or even talked of in the committee room. I know, however, that it has the ready assent of some of the best judicial minds of the nation, and I humbly think that when the time arrives, I shall be able to vindicate its wisdom in such a way as will silence all objection on the part of right thinking and loyal men. THOMAS WILLIAMS.

In response we remark—1. Mr. WILLIAMS had no occasion to resort to roundabout methods to get before the public any complaints or criticisms of his touching a matter appearing in our columns. He has always had free access thereto, except latterly, when he desired to make war on representative men of the party, as highly honored and as fully entitled to consideration as himself. 2. We stated that Mr. WILLIAMS reported the aforesaid bill from the Judiciary Committee, because the telegraphic accounts from Washington so represented. It had been previously abundantly stated by us that the bill was originally introduced by Mr. WILLIAMS. 3. In mentioning the fact that the leading thoughts embodied in the bill had been presented and discussed by two Chicago journals, one German and the other English, before Mr. WILLIAMS brought his bill before the House, we had no thought of derogating from his ability or usefulness. What we stated was simply a fact. Whether or not he had taken a suggestion from those journals we had no means of determining; nor was it important we should. Everybody understands that in a particular age, or in a special emergency during an age, ideas are held in common by many individuals who have no direct or palpable communication. Even in matters of practical science and of abstruse speculation the same ideas have occurred to thinkers widely separated by distance and wholly unknown to each other. In the progress of events the time comes for giving a new idea to the world. It seems to be in the very atmosphere, and scores or hundreds of men grasp it at the same moment. 4. It was natural for us as journalists to do justice to the perspicacity of members of our own profession, and if by so doing we demonstrated the converse of Mr. WILLIAMS's proposition, and showed that the thought was as likely to occur "to the conductor of a western newspaper" as to "any well read lawyer," the fault, if any, is in the fact, and not in us. 5. Public men are much more sensitive in respect to the deportment of public journals towards them, than in respect to their deportment towards public journals. Not unfrequently they want to make a convenience of newspapers, and failing, they are apt to think and represent that they are treated with unfairness or without due consideration by the conductors thereof. 6. There is but one man in the United States, or elsewhere, who puts a higher estimate on Mr. WILLIAMS's natural endowments and varied culture than we do, and that is Mr. WILLIAMS himself. In pure intellect and exact scholarship we hold him to be the foremost man of the House, and have said so time and again. Yet Mr. "C.," in presenting Mr. WILLIAMS's grievance against us to the *Commercial*, and through it to the public, is pleased to say:

"As a constituent of Mr. Williams, I share with many others the impression that, as a general thing, he does not receive from the journals of our county, who are supported by the same constituency, such favorable consideration as his representative position, if nothing else, entitles him to."

Pray, would you have us rate him as a god, and proceed to celebrate his apotheosis?

THE SUNDAY CAR QUESTION.

Street cars are not allowed to run in Philadelphia on Sunday. A good many of the citizens want the prohibition repealed. As many more want it retained. This difference has created considerable controversy, some of it of a stormy description. The question has been before the Legislature for several successive years; is before it now. The members for the city are afraid of it. Some of them desire to be re-elected; others to rotate into higher or more profitable places still. All of them are afraid that if the issue is fairly met the votes they may feel constrained to give will dig the grave of their hopes. Their apprehension is that if they vote for the bill allowing the cars to run the Conservatives will hereafter be arrayed in opposition to them; and that if they vote against it they will encounter the hostility of the Liberals.

As a means of extrication from this dilemma Mr. RIDGWAY had the bill referred to the Committee on Vice and Immorality, with the view of having it smothered. Hereupon the *Press* takes up its complaint against that gentleman in this form:

"There is an implied insult in this reference which is infinitely more disgraceful to those who perpetrated it than to the hundreds of thousands of noble citizens who demand that the facilities for travel, essential to their comfort, convenience, and health, shall not be despotically denied. There is plenty of legitimate work for the Committee on Vice and Immorality in this city and elsewhere, which it uniformly neglects. We know of little or no effective legislation that it has recommended for years to diminish intemperance, to suppress gambling or the social evil, or the festering abuses and corruptions which abound in the very building in which its sessions are held. It is only when a cry is heard from a pent-up population for free air and free travel, on the only day when hundreds of thousands are liberated from their laborious pursuits, that this committee is appealed to for the purpose of confining our citizens in their stifled streets and swelling the frightful tables of mortality issued by our city during the summer months."

It is quite possible the question of street cars on Sunday will be made a test in the election of members of the Legislature next autumn.

The Rev. PHILLIPS BROOKS, a nephew to WENDELL PHILLIPS, and the most brilliant clergyman in the city, dipped into this controversy in a sermon a couple of weeks ago, declaring that he could see no distinction between those who travel in their own carriages on Sunday, and those who travel in the carriages of the people, meaning the street cars.

THE NEW SCHEME.

It has been understood for some days past that the President and several of the Southern Governors whom he had summoned to his help, were incubating a new scheme of reconstruction. It is now announced that the process is completed. What has been concluded is this; that the revolted States shall establish suffrage without distinction of color, upon an educational basis of reading and writing and a property qualification of $250. It is expected that so many of the rebel States as shall consent to this, and incorporate it into their corporations, will be admitted to representation in Congress and have full amnesty extended to their inhabitants. The President will make this proposition to the next Congress, which will assemble on the fourth of March, and hopes to the assent of quite a number of the Southern States by that time.

This would, for the present, at least, exclude more white people from suffrage than it would admit blacks, and hence would tend to concentrate political power in fewer hands than now control it. But the effect would be to stimulate the acquisition both of property and education by whites and blacks alike. There are indications that in this race the blacks will surpass the poor whites.

If this basis of adjustment shall be agreed upon there are many considerations which demand that it be made applicable to all the States alike, by an amendment to the Federal Constitution. It is desirable, in itself, to have but one rule of suffrage throughout the country, and it is of the utmost importance if this plan of reconstruction shall be adopted, that none of the States restored under it be at liberty to recede after making the main point in their own behalf.

UNION PACIFIC RAILROAD COMPANY.

The Government Directors in this important Association are Springer Harbaugh, of Pittsburgh, George Ashman, of Massachusetts, Jesse L. Williams, of Indiana, Charles L. Sherman, of Ohio, and T. J. Carter, of Illinois. At a recent meeting of these gentlemen at Washington, they had interviews with the President and Secretary of the Interior. There are three hundred and five miles of the road finished and in operation; that it is sufficiently stocked with locomotives, passenger and freight cars, and amply supplied with machine shops, depots and water stations. The present terminus of the road is at a point a few miles west of the forks of the Great Platte River. The line is definitely located up the Lodge Pole Creek, to the foot of the Black Hills, then through Evan's Pass to the Laramie, a further distance of near three hundred miles, which it is contemplated to build during the present year. This main line will pass about one hundred miles north of Denver, which place the company propose to reach by a branch road. It is confidently expected that by the first of January next the locomotives will penetrate and cross the most difficult range of the Rocky Mountains at an elevation of seven thousand feet above tide water, and reach Laramie River, a distance of near six hundred miles from Omaha, the initial point on the Missouri River. Contracts are now being matured to effect that object.

FROM an interesting table prepared by the Corresponding Secretary of the Academy of Natural Sciences of Philadelphia we extract the following recapitulation of the table showing the physical characteristics of the members of the United States Senate:

That the tallest member of the Senate is Mr. Cowan, the shortest Mr. Davis, while fourteen of the forty-nine are over six feet in height; the heaviest, Mr. Van Winkle; the lightest, Mr. Riddle, while twelve weigh two hundred pounds or more. The Senator with the largest chest, Mr. Pomeroy; the smallest, Mr. Riddle; while nineteen have chests measuring, in circumference, forty inches or more; with the largest heads, Messrs. Grimes, Nesmith, Pomeroy, and Van Winkle; the smallest, Mr. Lane, of Indiana; while thirty have heads measuring, in circumference, twenty-three inches or more; the oldest, Mr. Wright; the youngest, Mr. Sprague; while thirty-one have lived for more than half a century.

Compare now the average of the Senators with those of men in general. Their average height is a trifle more than 5 10½ inches, that of men in general, 5 03; their weight, 171¼ pounds avoirdupois; that of men in general, 145; their girth around the chest, 38½ inches; that of men commonly, 34; their girth around the head, taken a little lower than the hat is usually worn, 22 5-6 inches; that of ordinary men, 22; their age, 51 years, 11 months, and 14 days (calculated to the 1st of July, 1866,) while the average life of a man is only 33.

ONE of the Boston gas companies recently entered on an elaborate series of experiments in order to test the relative merits of the coal generally used for gas-making purposes. The result is thus given:—"That a mixture of Pictou and Albert coal produces the best gas made; that the ordinary yield from Pictou coal is 3¾ feet of gas to the pound; from a pound of Albert about 6 1-2 feet. A mixture of Pictou with 6 1-2 per cent. of Albert produces four feet to the pound. From a ton of Pictou coal, in addition to the gas made, coke to the amount of 65 per cent. of 2,240 pounds, is produced, and from 8 to 10 gallons of coal tar. This tar sells at $2,50 per barrel. Albert coal makes but little or no coke, but from a mixture of Pictou with 10 per cent. of Albert about 60 per cent. of coke is secured."

IT is proposed to extend the Genesee Canal to Smithport, McKean county, Pa., and a bill to further the prospect is now before the Legislature of New York. The estimated cost of the extension will probably exceed $200,000, the greater part of which will be assessed upon McKean county, as it will be immensely benefitted, the Genesee intersecting the Erie at Rochester, now having no outlet for its coal and valuable timbers. Here, we might add, that the work of connecting the North branch with the Shenango canal is being vigorously pushed forward and when completed will furnish direct communication between Harrisburg and Utica, New York.

ARTEMUS WARD is very ill in London. He has been overtasking himself—lecturing to the people and writing for them. He has been compelled to renounce the stage and sign the pledge against *Punch*.

THE Harrisburg *Patriot & Union* and the Lancaster *Intelligencer* recommend the nomination of the Hon. WALTER H. LOWRIE, of this city, as the Democratic candidate for the Supreme Bench.

THE name of Cyrus L. Pershing, Esq., of Johnstown, is mentioned as the Democratic candidate for Supreme Judge, at the next election.

IN Utica, New York, the Councils have requested street railway companies to place runners on their cars during snow seasons.

MR. COWAN is the tallest member in the Senate, but he has stooped to things much lower than any of his colleagues could do.

IT is thought that the worst of the financial panic which threatened the country is temporarily at an end.

—"Cendrillon," a French version of Cinderella, is a spectacular drama in which are fifty or sixty young girls with but little more gauze on them than Eve had when she left the garden of Eden. O, naughty New York.

—Mrs. Throckmorton, of Colorado, eloped from her husband and three children, leaving a Parthian note for the former, informing him that none of the latter were his. All of which was very consolatory for Throckmorton.

—A little boy slipped head foremost into a well in Ossining, a few days since. He was discovered two hours afterwards by an older brother while drawing water. The mother, it is feared, lost her reason when the calamity was announced to her.

—Cincinnati will be Cincinnati. An exchange says that some admirers of Ristori in that city recently got so frantic in their appreciation of her fine acting, that they presented her with six large hogs as an evidence of their affectionate regard.

—An English paper says: "During the last few weeks several ships arriving at Liverpool from the United States, have brought over as portions of their cargoes, barrels containing turkeys, geese and other birds, sufficiently pickled to enable them to reach the 'old country' in edible condition."

—A clergyman has published a pamphlet in which he informs the world that that mysterious place called "Hell" is just four thousand miles down from the surface of the earth, and that the least spark from it thrown into the ocean would dry up all the waters and set the world in a blaze.

—The Delaware, Lackawanna and Western Railroad Company sold in New York, on Wednesday, thirty thousand tons of Scranton coal. There was a large attendance of dealers, and the bidding was spirited. The prices paid were from twenty-five to fifty cents a ton higher than those of the first of January.

—J. J. Bryant, a well known keeper of a faro bank for many years in New Orleans, was shot and killed at the St. Charles Hotel, on Wednesday night, by Judge Frederick Tate, a well known Texan lawyer. The difficulty is said to have originated in consequence of a forged check passed on Bryant by a third party.

—One of the most important cases yet presented to the Court of Claims, is that for $2,000,000 damages against the Government for the seizure by the War Department, in 1856, of a large tract of land at the Cascades of the Columbia river, in Washington Territory, since occupied as a military post, the land belonging to George W. Johnson.

SPREAD THE TRUTH.

Some medical men insist that it is undignified to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that; it is *inhuman*. Suppose HOSTETTER'S STOMACH BITTERS—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the *repertoire* of the faculty, what would have been the consequence? Instead of curing and invigorating millions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that light should not be hid under a bushel; that whatever is excellent should be placed as a city on a hill, where all men can take cognizance of it. It is upon the principle that the BITTERS have been advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimonials in its favor have been translated into all written languages. Thousands enjoy perfect health to-day who would be languishing on beds of sickness if the newspapers had not *spread the truth with regard to this unequaled invigorant and corrective* far and wide. Suppose profit *has* been reaped from this publicity. *Is that any argument against it?* If the public health has been protected; if lives have been saved; if the feeble have been strengthened and the sick restored, *has not a great good been accomplished*; and who so mean as to grudge to exertions thus directed their fair reward?

TO CAPITALISTS.
Lucrative Business in
Pittsburgh For Sale.

THE UNDERSIGNED OFFERS for sale and immediate transfer the Lease, Fixtures, Good Will and Stock of one of the leading houses in the West combining two separate branches of business, either of which can be carried on independent of the other; one a very large cash retail business almost without a limit; the other a specialty, with but one competitor, and capable of being very largely extended, and in which no capital is required.

The profits of the business for 1866 were $43,000, and it is comparatively in its infancy, being thoroughly legitimate, and requiring but energy and attention. It is to the man of capital at once a rare and special chance.

Satisfactory reasons given for disposing of the same, and full particulars given in detail.

District Court.

Before Hon. H. W. WILLIAMS.

This Court met at ten o'clock on Monday, but no case being ready, a recess was taken until two o'clock P. M.

Wooldridge Oil Refining Co. vs. Equitable Insurance Company. Passed until Tuesday 12th inst.

Egbert S. Ward vs. Oliver B. Jones, administrator of George B. Jones, deceased. Case continued at plaintiff's cost.

S. W. Spaulding vs. Miller & Sweeney. Rule on plaintiff to show cause why judgment should not be opened and defendant let into a defense. Proceedings stayed. Reason filed.

Adjourned till nine o'clock Tuesday.

In the Quarter Sessions' Room.

Judge Sterrett held Court yesterday in the Quarter Sessions' Room. Not being able to get up a case in the forenoon, Court took a recess until half-past one o'clock.

ACTION IN EJECTMENT.

Robert Hays vs. William Thompson. Action in ejectment for one hundred and seventy-six acres of land in Jefferson township. By deed dated February 11th, 1862, the plaintiff conveyed to Margaret Ellen Thompson, his niece, wife of defendant, the property in dispute, in consideration of the sum of $3,170, and the further sum of $269, 25 to be paid to the plaintiff annually. At the time of the acknowledgment of the deed, plaintiff gave a receipt to Margaret Ellen Thompson for the sum of $3170, as a final settlement of the account between them, plaintiff retaining the amount due her as payment for the land sold. Mary Ellen Thompson died April, 1863, and the annuity as provided for in the deed not having been paid, suit is brought against the husband to recover possession of the property or the amount of annuity due, $1,233. The case was tried a short time since, and a verdict rendered in favor of the plaintiff, but the verdict was set aside and a new trial awarded, the length of time allowed for the payment of the amount claimed, April 1st, 1868, being considered unreasonable. The case occupied all the afternoon—S. A. Purviance for plaintiff and Robt. Woods for defendant.

Common Pleas.

Before Hon. Thomas Mellon.

STILL ON TRIAL.

The case of Mellon and Shoop vs. owners of the steam tow-boat Brilliant—action for damages, arising out of the sinking of a coal flat in the Allegheny river—was resumed on Monday and occupied the entire day. It will be concluded to-day.

EJECTMENT CASE.

Patterson and McIlwaine vs. Dryden, action in ejectment. Plaintiff's are "tipstaves" in the court. In the midst of the trial of the case above noted, the defendant came within the bar from the lobby attracting attention, first by kicking violently against the door or gate. He walked to the front of the bench without removing his hat, and after looking intently for a few seconds at a chair which stood near him, deliberately kicked it over, whereupon he was seized by Patterson and McIlwaine, and ejected from the court-room. After being detained for a short time in the Sheriff's office, here he also kicked over a chair, and continued kicking it about, he was permitted to go into the rotunda; but no sooner did the officers release their hold of him than he re-entered the court room and made directly for the chair which he had first kicked over. McIlwaine, however, collared him and a second time ejected him, with considerable precipitation. The singular conduct of the man, whose name is said to be Dryden, arose, it was supposed, from intoxication or partial mental aberration from excessive indulgence in whisky. By order of Judge Mellon he was committed to jail.

The Break at Wheeling.

The Wheeling *Intelligencer* of Saturday says: Yesterday at about 3 P. M., the ice in the creek, which had been broken up for a day or two, under the tremendous pressure of accumulated waters, began to move out into the river. Its earthquake crash could be heard far up into the city, and soon after the river banks and the bridges were covered by hundreds of people to witness the grand spectacle. The ice being gorged to the bottom on the lower side of the mouth of the creek, the current turned up the river, bursting up the ice and hurling vast cakes, from fifteen to eighteen inches in thickness, end over end and grinding them into slush. The steamers New State and the Hillman, both of which lie near the mouth of the creek, for a few moments seemed in a very critical condition. The New State, which lay farthest down, parted her stern cable, and driven by the creek ice, came at a fearful speed, ripping up the river ice and lodging against the Hillman. At this juncture, the creek ice gorged and stopped running, and the boats escaped serious injury. The New State had one of her rudders broken and her guard mashed a little.

News of a heavy rise in the river at Pittsburgh having been received, yesterday evening, a large number of hands were engaged last night in cutting the Hillman and the Eagle loose. Such is the thickness of the ice at this point that a sudden break up could hardly be anything but fatal to the boats at our landing, but as there was some prospect of freezing a little last night, it is hoped that the rise will be measurably checked.

Leaving Children at Home Unattended.

Every week or two, we note the occurance of a casualty of some character, resulting from the thoughtlessness of parents leaving their children locked up at home unattended, during temporary absence. On Saturday last, a Mrs. Glenzing, residing on Manor, above Carson street, Birmingham, having occasion to leave her house for a few moments, locked her two smal children, aged respectively two and four years, in the house. Shortly after Mrs Glenzing had left a next door neighbor heard the children crying, and fearing that something was wrong, aid was summoned and the door burst open, and search instituted for the children. Cries were then heard proceeding from a closet under the stairs, and on opening the door the closet was discovered to be in flames. The children were dragged forth almost stifled, and the fire put out. The oldest of the children stated that in playing with a lighted shaving in the closet fire was communicated to other inflamable materials, with the result noted. The children had a narrow escape, and the parents a lesson which they can afford to share with hundreds of others.

Personal.

On Sunday morning Mr. Alexander McKee, one of the oldest citizens of Allegheny county, died at his residence in Robinson township, of paralysis, in the seventy-first year of his age. Mr. McKee was a native of this county. His father settled in the neighborhood of McKee's Rocks, in the early days of Indian troubles, in this vicinity, and pursued his occupation as an Indian trader for many years.

On Thursday night last Mr. Alexander McKee, a son and grandson of the above mentioned, died at his father's residence, of erysipelas. The father survived the son but three days.

Mr. J. C. Price, Superintendent of Smithfield Street M. E. Sunday School, was presented on Sunday last, by the teachers and scholars of the school with which he has been long connected, with a handsome and costly copy of the Bible. Mr. Price is about removing to Philadelphia.

W. H. Silvus, President of the International Moulders' Union, is in the city, and is to address the moulders at their hall in reference to the present troubles between employers and employees of that craft.

New Publications.

THE POSTHUMOUS PAPERS OF THE PICKWICK CLUB. By Charles Dickens, with illustrations. Boston: Ticknor & Fields. Pittsburgh: for sale by Henry Miner.

The Boston publishers have laid the reading public under great obligations by the admirable manner in which they have reproduced this old favorite.

W. A. Gildenfenny, 45 Fifth street has sent us a copy of the GALAXY, Vol. 3, No. 3, and, also, of Frank Leslie's PLEASANT HOURS, for March.

Released.—On the 31st. of January, Philip Speiler, was committed to jail by Justice Arrent, of Reserve township, in default of $300, to answer at Court a charge of surety of the peace, preferred by Conrad Wagner. Yesterday the necessary bail was procured and the prisoner released.

Geo. Thompson committed on the 24th. of January, by Mayor McCarthy for a further hearing on a charge of misdemeanor in having abused a horse and sleigh hired from R. T. White, livery stable keeper in Manchester, was released yesterday, the case having been settled.

A Gentle Maiden.—Wm. Ingram, of this city, yesterday made information before Alderman Donaldson, charging Maria Patton, of Allegheny, with surety of the peace. He alleges that the fair Maria threatened to shoot him on account of some difficulty between them. She was arrested and the case was amicably settled.

New Quarters.—Some of our prominent retail dealers are agitating the question of making some other portion of the city equally as attractive for business as Fifth and Market streets. Wise, if it can be accomplished.

Badly Involved.

We yesterday stated that four boys were arrested and fined by Mayor Morrison for disorderly conduct Sunday morning. The boys were discharged on the payment of their fines, and went their way. Yesterday morning information was made before His Honor, by Mrs. Davis, keeper of a book store on Federal street, charging Joseph Stewart with larceny. It was alleged that on Saturday evening, the accused came to the store while Mrs. Davis' little boy was in attendance there, and desired to see some pocket books. Two worth one dollar and twenty-five cents each, were laid out for him by the little boy, and the purchaser snatched them both up and ran away with them. Officer Campbell succeeded in arresting the accused at the Railroad Depot, and on taking him to the Mayor's office, it was discovered that he was one of the four who had been fined on Sunday morning. He denied but was positively identified by the boy who was in the store.

During the early part of last week information was made before the Mayor by Mrs. Martin Vaught, whose husband keeps a boot and shoe store, at No. 56 Ohio street, in the Third ward, Allegheny, charging an unknown boy with the larceny of a pair of fine calf skin boots, worth eleven dollars. It was stated that on Monday evening of last week a boy came to the store and requested to see a pair of boots. Several pairs were shown him, and he tried the stolen pair on, saying that he would keep them. He then requested to see a pair of ladies' skating shoes. While Mrs. Vaught was getting them, he ran rapidly out of the door, and into an alley, making his escape. The description of the thief applied to young Stewart, and Mrs. Vaught was summoned to see him. She came and identified him as the thief. He denied the theft most strenuously, but was so clearly proven guilty that the Mayor held him to bail to answer at Court. Being unable to procure bail, he was sent to jail.

Mr. Philip Kattern, a mechanic occupying the same house with Mrs. Vaught, also appeared against the same prisoner, and identified him as one who came to his shop and procured a couple of files; taking them away to get them sharpened for a consideration. Neither the files nor the boy showed themselves afterwards. No formal information was made in this case.

On being remanded to his cell, the prisoner, notwithstanding his strenuous denial, confessed to the larceny of the boots, but refused to tell where they were. He said that if the prosecutrix would take the boots back or would accept $12 for them and withdraw the suit, he would tell their whereabouts. He finally said that he had given them up to a boy named Nathaniel Tate, residing on Robinson street, and employed at a foundry in the Second ward, Allegheny. Officers Hess and Campbell started after the accomplice, and he is probably in custody before this. The prisoner gave a little episode in Tate's life, stating that some time ago he met a preacher in Pittsburgh, and knocked him down three times. He was arrested and held to bail for court under the name of Johnson. He "jumped" his bail and went to Wheeling whence he has just returned.

Stewart is a hard boy. He was a year in the House of Refuge, three years ago, charged with incorrigibility. His mother is a hard working, honest woman, residing on Robinson street. He is about seventeen years of age, but is a graduate in vice.

A Street Car vs. a Freight Train.

A car on the Manchester Railway, yesterday morning collided with a freight train on the Fort Wayne Railroad, at the crossing of Federal street. The car was descending the grade with the brakes hard down, but owing to the icy state of the track they had little or no effect, and it was found impossible to check the speed in time to prevent a collision with a freight train which was crossing the road. The tongue of the railway car run in between two freight cars, and was instantly twisted off. The horses were violently swung around parallel with the train, and one of them badly bruised and cut up, so much so that he was shot to put an end to his pain. The front platform of the street car was torn off. The passengers escaped from the car, with the exception of a lady slightly bruised in getting off, without injury.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, }
MONDAY, Feb. 4, 1867. }

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 136⅝@136¾; Eighty-one bonds, 107¾; Five Twenties, old 107¾; Five Twenties, '65, 106¼; Five Twenties, new, 104⅝; Seven Thirties, 104⅞; Cleveland & Pittsburgh, 84⅝; Pittsburgh, Fort Wayne & Chicago, 98¾; Erie, 59; Michigan Southern, 73¾; Chicago and North Western, 37⅞; Chicago and North Western preferred, 68; Chicago and Rock Island, 98; Western Union Telegraph Co., 45; New York Central, 100⅝.

The following statement exhibits the business of the Pittsburgh Clearing House for the week closing on Saturday, February 2d:

—From the most reliable information which can be obtained on the subject of what legislation may be perfected on the subject of the finances of the country, it appears that nothing more is likely to be done than to authorize the proposition to issue loan certificates to the national banks in payment for the compound interest notes held as a part of their legal reserve, and even this will be resisted by a large portion of the House and Senate who are opposed to any modification of the laws on the subject of the contraction of the currency; but as the law now stands, the banks connected with the clearing houses only can receive these loan certificates, and as it is likely that the relief received by some will be claimed by all, it is probable that the Secretary of the Treasury will be authorized to issue these loan certificates to the amount of the compound interest notes now held by the banks as part of their reserves, not to exceed the amount of some one hundred million dollars. There will be a strong effort made by Mr. Hooper and some other members of the Committee on Banking and Currency to get a vote on his bill to amend the law regulating the national banks, &c.; but on account of the obnoxious features of the bill the influence of the national banks will probably be sufficient to keep the bill in the committee, and thereby kill it for the session. The same course will probably be pursued with regard to the bill of Mr. Randall, and the laws will probably remain as they now are on all matters of currency, with the exception of the exchange of loan certificates for compound interest notes.

—Says the New York *Tribune*, of Saturday: The rumor in general circulation today was to the effect that the January debt statement will show no decrease of plain legal tenders, and that no further reduction will be made in that direction. What speculators for a rise and debtors want is, not a suspension of contraction, but a new inflation, which it is idle to expect, from the simple fact that there is nothing in the financial condition of the Government that make a new issue of currency necessary. As it is still in the receipt of incomes exceeding its ordinary expenses, and interest on the debt, contraction in some form is sure to be made, and people will only deceive themselves who make money engagements upon the theory that the Government cannot steadily contract. Thus far, Congress has shown no disposition to encourage anything like expansion, and trustworthy authority warrants the opinion that no inflation will be authorized at this session.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
MONDAY, January 4, 1867. }

The produce markets were exceedingly quiet to-day, owing partially to the wet and inclement condition of the weather, which always has a tendency to keep people in doors and restrict out-door operations.

GRAIN—We can report a sale of two cars of Winter Wheat at $2,87½. Oats dull but unchanged, and receipts comparatively light; may be quoted at 47@48, on track, and 50 to 52, in store. Barley is in rather better demand, and No. 1 Spring sells readily at 90. Corn is dull but unchanged; small sales at 78@80. No movement in Rye; prime Ohio and Penna may be quoted, in the absence of sales, at $1,20.

FLOUR—Is dull and weak, but not quotably lower, as yet. Small sales of standard Spring Wheat brands may be quoted at $12,25; Winter Wheat at $13,50 to $14, and fancy St. Louis brands at $16 to $17. Rye Flour is dull and unchanged—$7,75 to $8—Buckwheat Flour, $3,50 to $3,75.

PROVISIONS—Bacon is selling in a jobbing way at 11½ to 12 for Shoulders, and 16¼ to 16½ for Sugar Cured Hams. Prime kettle rendered Lard is quoted at 12½ to 13. No movement in Mess Pork or Bulk Meat.

SEEDS—Flaxseed is in demand at $2.60 to $2,65. Small sales of Clover at $8 to $8,50, and Timothy at $3 to $3,50.

BUTTER—Prime Roll Butter is in good demand and sells readily at 33, in bbls, and 35, in half bbls. Common packed Butter is in good supply and dull.

EGGS—Supply of fresh packed almost exhausted—last sales reported at 30—an extreme price.

HAY—Is steady and unchanged; prime baled is selling by the car load at $25 to $26; loose Hay may be quoted at $25 to $30, as to quality.

MILL FEED—Is in limited supply, but the demand is light for the season. There is some inquiry for Bran, and there is little or none in market. Small sales of Middlings at $1,90 to $2, as to quality.

APPLES—In better supply and, if anything, the market is a shade weaker. We can report sales at $3,50 to $4 per bbl for fair to prime, and $4,25 for choice.

POTATOES—No improvement to note in the demand, and the market is dull and prices are unchanged—Sale of 50 bbls Peach Blows at $3 per bbl.

DRIED FRUIT—is in good supply and rather dull but unchanged; small sales at 9 to 10 for Apples, and 17 to 20 for Peaches—round lots can be had considerably below these figures.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, }
MONDAY, February 4, 1867. }

CRUDE—There was not a single operation to-day that we could hear of, and while the market is dull and unsettled, prices are nominally unchanged. On the spot, Smith's Ferry oil may be quoted at 7 to 7½, packages returned, and 12 to 12¼, packages included, according to gravity. Venango oil may be quoted at 8¾ to 9 cents, to arrive on first water—the inside figure offered and the outfigure asked—both buyers and sellers are obstinate, refusing to meet each other and, as a consequence, we have no sales to record. The indications at this writing are favorable for an early resumption of navigation, and in that event, large arrivals may be expected, as the accumulation at Oil City and at the wells must be heavy.

REFINED—The market for bonded oil continues dull and weak, there being but little inquiry either for present or future delivery, though, it is equally true, that there is but little offering at current quotations. On the spot, quotations may be fairly given at 21½ to 22, free on board cars here, and 27½ to 28, delivered in Philadelphia; 29 for all this month; 30 for March; 31 for April; 32 for May; 33 for June, and 34 for July. Free oil is dull but unchanged; standard brands may be quoted at 43 to 44, in a jobbing way, and 42½ to 43 for twenty-five and fifty barrel lots.

New York Dry Goods Market.

NEW YORK, Feb. 4.—The market continues languid and depressed for all descriptions of goods, both foreign and domestic; still there is no particular change, as prices are now extremely low and with less demand; the passage of the tariff bill would have a tendency to enhance the value of wool, silk and flaxen goods. Domestic standard sheetings, best makes, command 21½@22c, and seconds 20@21c; Cocheco prints, 19c; Amoskeag, 16½c; Lowell, 15c; Naumkeag, 14½c; furniture prints, 20c; Glasgow ginghams, 22c, Manchesters, 18c; worsted delaines, 25c; all wool do, 42½c; White Rock linsey's, 31½c; Westerly do, 30c; New York mills cottonades, 62½c; plough loon and anvil, 47½c; Beverly twills, 35c; Willow Brook ticks, 45c; Lonsdale bleached shirtings, 25c; Bollon & Son's, 22c; Dwight A, 18c; Lonsdale Silesias, 22½c; and Roanoke checks, 25c.

New York Cattle Market.

NEW YORK, February 4.—Beef opened firm with a fair demand, but closed dull with a few left unsold. Prices for all grades were easier excepting for extra, which, being comparatively scarce, commanded a slight advance, with sales as high as 17½@18c; good grades brought 15@16c, and common, 12@13½c, and each lower in some cases; the total range being from 10@18c. Receipts, 4,726 head. Cows dull and unchanged. Calves steady, at 10@14c for common to extra. Sheep and Lambs not varied materially, and the market ruled quite active until to-day, when it was very low, with a fair supply; extra, 8@8½c: fair to good, 6½@7½c; common, 5½c; inferior, 4@4½c; receipts, 19,732 head. Hogs, under light arrivals caused by the detention of trains, advanced 1c, with sales as high as 8¼@8½c; the demand being confined to the retail range, at 8@8½c; receipts, 4,732 head.

Philadelphia Seed Market.

PHILADELPHIA, February 2.—The market is very poorly supplied with prime Cloverseed, and this is the only descriptions for there is much inquiry. Sales of 600 bushels at $7,75 to $8,50, and 100 bags recleaned, for another market, at $9. The shipments of seeds from this port to foreign ports since December 1st, reach 3500 bushels. Timothy is selling at $3,75 to $4. Flaxseed is taken by the crushers at $2,90 to $2,95 per bushel.

MARKETS BY TELEGRAPH.

The following is the weekly bank statement: Loans $200,128,430.05; decrease $410,448; specie $16,332,984; increase 318,977; circulation $32,995,347; increase $38,149; deposits $200,511,506; increase $2,559,520; legal tender, $65,944,541; increase 2,521,982.

RIVER NEWS.

The river was receding slowly at this point last evening, with fifteen feet in the channel. The weather yesterday was raw and unsettled, and considerable rain fell during the afternoon. Telegrams from Oil City report the ice as having commenced moving in Oil Creek, and we have no doubt but that the Allegheny by to-day, will be open all the way up to that point. A good many oil barges and flats have already been carried off down this stream, and should it open all the way up, we expect to see the number largely increased.

Capt. Robert Greenlee, one of our oldest steamboatmen, has taken charge of the Leonidas, Capt. McGowan being on the sick list. The Leonidas has been waiting for two or three days for the ice to run out to take her departure for New Orleans, and she may possibly have got out last night. She has engagements below.

Mr. R. H. Porter has retired from the office of the Maggie Hays, and is succeeded by a Mr. Dravo. The Maggie, in command of Capt. D. L. Hendrickson, is filling up rapidly for Cincinnati, and will probably get out this evening.

It seems that Capt. Andy Beers who was to have went out clerk on the Kate Robinson, has backed out, and accepted a position tendered him by one of our iron houses. Capt. Robinson was thinking yesterday of taking charge of the office himself, and putting Capt. Marsh Hays on the hurricane roof. At all events, she will leave Wednesday for New Orleans, and passengers and shippers should bear this in mind.

The Monongahela river was full of floating ice all day yesterday, but we are of the opinion that it will be pretty well run out by to-day. The damage by the break up so far as we have been able to learn, has been comparatively light, nothing like what was generally predicted, and nothing like it would have been, had the snow been taken off suddenly by a heavy rain.

The Kate Putnam, Capt. J. H. Lightner, with Mr. J. D. Young in the office, is filling up rapidly for St. Louis, and will be ready to leave this evening or in the morning. The New York, Capt. Coffin is next in turn after the Putnam.

The Glendale, Capt. J. H. Hare, with the veteran Capt. James Mellon in the office, is announced to leave for St. Louis on Wednesday without fail. She has superior accommodations for passengers, and is a bran new boat, having made but one trip.

The Argosy left Portsmouth for Pittsburgh on Saturday last, and the Sherman, Glasgow and Golden Era will arrive here as soon as the ice runs out. The Waunanitta and Lorena are laid up at St. Louis.

The Bayard, Capt. Geo. D. Moore, will leave for Parkersburg to-day, providing the river is pretty well cleared of ice. The Bayard is in first-rate condition for business.

The Maggie Hays, Capt. D. L. Hendrickson, will positively leave for Cincinnati on Wednesday.

The Kate Robinson has already nearly six thousand plows on board for New Orleans, and we have no doubt by the time she reaches Louisville, she will have all the freight she can carry. The Silver Cloud No. 2 Capt. Conway, will follow the Robinson for New Orleans.

The Ezra Porter was next in turn for St. Louis after the Kate Putnam, but owing to some improvements being made to her engines, she lay over until next week, and the New York will take her place.

Capt. Chas. A. Dravo, of the Evansville and Cairo packet Quickstep, is here on a visit to his family.

The ice did considerable damage at Wheeling on Saturday, sweeping off the steamers New State, Eagle, and C. E. Hillman and wharf boat.

The Hudson, which boat was tied up at Belmont, parted her lines, but having steam and her wheels being in good order, she was made fast and secured. A dispatch received in Wheeling from Marietta on Sunday evening, announces that the New State and Hillman had passed that point about five o'clock. The Concert, a little dinkey, owned in this city, was the only craft that was not carried off.

Advices from St. Louis report the Lillie Martin sunk near St. Mary's. She was caught in the ice, and run aground on an obstruction in the river, breaking her in two. The cargo will be mostly a total loss. She was insured in St. Louis and Cincinnati offices. She was valued at $30,000, and insured in St. Louis and Cincinnati offices for $20,000; was built at Pittsburgh in 1863, and measured three hundred and seventy-five tons; ranked B 2.

MISCELLANEOUS.

PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw colored, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order, and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.

CONSUMPTION.

Our son, JAMES PAINTER, some three years of age was afflicted with consumption of the lungs for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

JAMES PAINTER.
MARY ANN PAINTER.

Temperanceville, Sept. 5th, 1866.

PITTSBURGH, December 31, 1856.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eighteen months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle, I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think that it should be known that this valuable remedy will do for others what it has done in my case. JOHN C. LITTLE,
Witness—R. M. KERR. Peebles township.

A case of five years' standing cured by Dr. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1859.

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

WHOOPING COUGH.

Below will be found a certificate from Doctor M. DUPUY, one of our most respectable dentists, in regard to Dr. Keyser's Pectoral Syrup. The Pectoral Syrup is also an infallible cure for every form of cough and cold to which we are liable.

PITTSBURGH, June 23, 1862.

DR. KEYSER:—Dear Sir: I have for a long time been opposed to advertised or patent medicines, and it is with reluctance that I recommend any of them. The consideration, however, that I am doing the community a service, induces me to overcome my objections, and to publicly recommend your Pectoral Syrup. We have kept it in our family for the last five or six years and have given it for coughs, such as are produced by colds, &c., with the effect of alleviating or entirely arresting them. During last winter our children were exposed to the infection of whooping cough, and each one of our three boys was attacked with what we believed to be that malady. We administered your syrup liberally, and the result was, that the whooping cough lasted with neither of them more than ten or twelve days. I hope others will at least make a trial of your medicines in such cases, as we have found it beneficial. Yours,

A. DUPUY, No. 21 Wylie street.

HERNIA OR RUPTURE.

It will be observed that we have published for some time past an advertisement of Dr. George H. Keyser, of 140 Wood street, Pittsburgh, Pa. in reference to Trusses and other mechanical appliances for the cure and relief of hernia, rupture, besides various broken down conditions of the human body which are usually beyond the reach of medication. Dr. Keyser has given this branch of the business great attention for several years past, and we think we are justified in saying that he comprehends it thoroughly. You can get at his store, Shoulder Braces for weak breasts, Elastic Stockings for varicose veins, Pile Props for the cure of Piles, and, in fact, every variety of mechanical appliance. Dr. Keyser is the inventor of a Truss for the radical cure of Hernia or Rupture, so perfect in its parts and so comfortable to the wearer, as to elicit the admiration of all who may need such an appliance.

He has recently been in communication with some of the ablest and most experienced truss surgeons in the United States, and feels satisfied that all those who have been plagued or annoyed with ill-fitting and uncomfortable trusses, can be accommodated by calling at his consulting rooms, No. 120 Penn street, or at his Medicine and Truss Depot, 140 Wood street. Office hours from eight to eleven A. M., and one to four P. M.

DEAFNESS AND THE EAR.

Many persons have rested content in the belief that skin and ear diseases, however troublesome, will wear out of themselves, or that no remedy will avail in effecting a cure; in this way many persons have suffered through half a dozen years, who might easily have been relieved at the onset in as many weeks. So also with regard to the ear, a prejudice has obtained that the ear is too delicate an organ to be treated, or as is often expressed, TAMPERED WITH; hence hundreds have thus remained deaf for the greater part of a lifetime, who might have been greatly relieved, and in many instances, completely restored to their hearing, had proper assistance been timely applied for, as may readily be seen by a perusal of the following certificate. We also take occasion to remark that the testimonial comes from a source close at hand, in Allegheny City, where, upon inquiry, any one interested can satisfy themselves of its truth:

PITTSBURGH, July 28, 1866.

DEAR SIR:—I take pleasure in adding my testimony to that of others in favor of Dr. Keyser's treatment of deafness. My son had been afflicted for five years with deafness produced from scarlet fever. At times he could not hear at all; and could only understand as we would motion to him. His speech had also become affected. Having tried other remedies without receiving any benefit, I applied to Dr. Keyser, and under his treatment he has entirely recovered, and can now hear as well as ever he did.
